# SVM pressure sets

SVM pressure sets are the sets of choice with high efficiency stainless steel pump, incorporating EPDM food grade bladder, best suited for transportation of pressurised drinking water.

## Applications

Automatic distribution of pressurised water for domestic purposes:

- Increase pressure of mains supply
- Garden watering – automatic irrigation
- Pressure distribution of water from wells and storage tanks
- Washing systems.

## Features

- Self-priming high efficiency pump with jet hydraulic system with thermal overload protection
- High quality stainless steel
- Pressure tank fitted with EPDM food grade membrane for drinking water
- Noryl® PRO pump impeller.
